11. When the installation is finished, you should see the message, "Install Succeeded."

Launching the FacetPhone User Interface

Launching the FacetPhone User Interface:

12. The Dock in Mac OS X is a great FacetPhone launcher. Here you will learn how to drag-and-drop the FacetPhone User Interface folder onto the built-in Stack in Mac OS X Leopard.

13. Go to your "Application" folder in your finder menu, and click on the FacetCorp folder, as seen below:

Click Go Click Application Click Application Folder Click Facetcorp

Go Window Help			Com.

Go to Folder 쇼개 Connect to Server 위	G IIIIIIIIIIIIIIIIIIIIIIIIIIIIIIIIIIII	GarageBand	

14. Now, drag and drop the FacetPhone folder to the Dock in the position you would like your Launcher, and release the mouse to fix the FacetPhone Launcher into your desired position.

15. To use the FacetPhone Launcher, single-click FacetPhone icon.

16. After single clicking the FacetPhone icon the user interface files will pop up. The example window shows a FacetPhone launcher folder with a custom icon for the FacetPhone application.

17. After launching the FacetPhone User Interface you will be presented with the "Connection Configuration" window. Fill in the following information as provided by your Network Administrator:
